

EDUCATION

B.S., Accounting
College of William and Mary, 1982

Vince has over 36 years of accounting/financial experience in the engineering industry. He coordinates and implements all accounting functions for TCG and is responsible for all financial functions through tax preparation, including, but not limited to: Banking, Payroll, Accounts Payable, Accounts Receivable, Financial Statements, Human Resources, Budgeting, Auditing, Insurances and all Project Accounting.

Vince has an extensive background in accounting and business management. His areas of expertise include auditing, budgeting, stock transactions, and real estate.

His accounting focus and years of experience in accounting/financial management fit well in the business model that TCG has created. These are crucial in helping TCG meet the challenges of becoming a successful, highly efficient, and customer centered service business.
